Construction On Buildings Dots Y Campus

From Y Center

Y Center, the giant of the campus-scheduled to be the first of the four buildings to be completed. The six-building will house administrative

offices, bookstore, indoor sports facilities, ballroom and many other outstanding features. The three-deck penthouse will allow a breathtaking view of campus.

FINE ARTS ...
gated academic building on the hillside. Harris Fine Arts is currently the largest building of the Y Center to be completed, and will be one of the few buildings entirely designed for all of the fine arts.

This will also be the first major building to be completed. The building of Fine Arts will be the same building, said Con-

FINE ARTS CENTER contains five theater areas which will include a concert hall, a film theater, a stage for a musical theater, and a recital

sala. The theater, the program will have approximately 400 seats, and will be the largest auditoriums in the state. Also planned are 125 seats for the recital hall.

ERE WILL BE 40 music rooms with piano and organ, and 100 music practice rooms. The building is finally completed and house approximately 500 students.

The building also includes an art workshop, a library, a studio, and 25 speech rooms.

IS THE SPEECH DEPT. is to be the first and latest completed in the new theater and auditorium. In the Communications Department, there will be a radio station, one radio studio, one television studio, and a news room. The goal of the department will be to sponsor continuous news and information every night of the week.

It is expected that some form of entertainment will be presented each night of the week. The department will be within the building and will be the longest of musical and dramatic actions.

TYPE OF PROFESSIONAL will be used for two reasons. Second, the students and actors and performers. Second, it will give a proper training to the students for the purposes of university presentation.

The unusual feature of the building will be the art galleries, they will be a communication center for the names of the major theaters.

football Game ...
Tickets Ready for Saturday

Seats for the homecoming football game will be given only to those at most of the football games. The tickets must be secured by the ticket office. The ticket office will be open from 10 a.m. to 4 p.m. on Saturday.

Students holding the stadium or obtaining their tickets will receive a 10 percent discount. The first 500 seats are on a first come, first served basis.

Students holding the stadium or obtaining their tickets will receive a 10 percent discount. The first 500 seats are on a first come, first served basis.

Students holding the stadium or obtaining their tickets will receive a 10 percent discount. The first 500 seats are on a first come, first served basis.

Expanding the College of Fine Arts will be the new Harris Fine Arts Center to be completed next summer. The Center will be the largest academic building on the

BYU campus. There will be five theater areas, classrooms, television and radio studios and faculty offices. An unusual feature will be the built-in art galleries.

To Halls...

Dramatic square stones on the campus skyline are marking the site of the new dormitory building that will eventually house over 1,300 students.

THE COMPLEX includes five halls and one main administrative building. The dormitory halls are scheduled for completion Sept. 1, 1964. The others are to be completed in 1965.

The stonewalls and supporting structures are being built for the pouring of the roof and floors. The dormitory halls are packed and jacked up to position by the block pillars on the outside.

EACH BUILDING will hold 275 students and when completed in Provo.

Double sleeping rooms will serve as a sun deck.

Each room will be built into

washrooms, storage, game rooms, ceiling fans, central heating and

rooms and utility vans for elec-

tricity, air conditioning, heat ex-

changers and water.

Several central areas will be

utilized for common areas.

The roofed over walkways will

serve as a sun deck.

Each

BYU Campus Departments Expand With Times

Housing Grows

A decade has elapsed and student housing at BYU has greatly changed.

At the fall of 1945 the student body was 1,223 the cost of a dormitory building, housing 372 girls, was \$15,000.

Eight new buildings were added in 1946, 1947, 1948, 1949, and the Heritage Hall group in 1950 to accommodate 1,230 women.

Now, HOMESTEAD, for married couples, built in 1950, houses 130 two-and-a-half bedroom homes.

At the fall of 1953, five residence halls, housing 1,170 men, are in the process of being built, received on, and business office facilities were completed. The total cost of the buildings of the Belmont Hall project in the fall of 1953, made accommodations for 2,400 men.

THE WYOMINT, Belmont project consisting of 150 apartments, was finished in the spring of 1953.

Family Living

From 203 students to 310 in ten years, this is the jump in enrollment for the College of Family Living, according to Dean Virginia C. Cole.

These students are only in a Home Economics Department on the BYU campus. In 1953, the College of Family Living was established from that department.

At that time there were only 20 staff members, today there are 29.

The College of Family Living has a wider scope now than ever before. The students are no longer assigned to give instruction in all phases of better family living.

Education College

The College of Education has had a long and industrial reign since its organization in 1923. Young Academy, preparatory school for teachers in 1924.

In 1925 there were only 29 students enrolled and only two teachers.

In 1950 the school erected a new training school and gym which aims to promote complete development morally, physically, and mentally.

ON OCT. 23, 1953 Brigham Young Academy became Brigham Young University. The school purchased 28 acres of land and a new building was erected and dedicated to the school by the Knight Foundation.

There are presently over 100 faculty members teaching in the College of Education. Of the 505 students indicated their desire to receive teaching certificates.

Health Center

The McDonald Health Center has been a great service to the students to facilitate the great increase in enrollment, according to Director of the Center, Dr. W. E. Trumel.

THE NEW Health Center was finished in 1954 and up until this time accommodated the students, the faculty, the ROTC and the ROTC on the bottom floor.

Because of the anticipated increase in patients the bottom floor was converted into a dormitory in the summer of 1953 with some construction work.

THE OUTPATIENT department, emergency room, lab, X-ray room, and the dental office located on the bottom floor.

For inpatients and entrance physical examinations, the accomodations are for patients in the dormitory.

Despite the expansion which is anticipated, the expansion is to meet the anticipated increase in enrollment, new facilities will soon be needed, said Dr. Trumel.

Evening School Religion Expands

Expansion can be seen or had by people who have had no training, but for organizations, EXPANSION has been the name of the game.

At the present time the Evening School is in its second year and early classes were held under the heading of Extension Classes.

Now, however, the Evening School is in its third year and early classes were held under the heading of Extension Classes.

RELIGION classes were soon added, and with the inclusion of educational classes, a special program was developed.

At the fall of 1953, the Evening School was created.

It began with four classes and 171 students. In the spring of 1954, the Evening School was offered with 2,656 students enrolled.

At the time of another class, there were only 10 students.

Mr. Webb, who was the director of the Evening School, was asked to come to the completion of a master's degree?

From Eight to 43...

Enrollment

Engenders

New Ward

by Ron Ellis
University Features Reporter

Only eight years ago there was not one ward of The Church of Jesus Christ of Latter-day Saints in the Brigham Young University area.

Now there are nearly 12,000 members in the Brigham Young University stakes.

BEFORE 1950 students weren't required to have their membership in the church while attending the university. In 1950, only 10% of students were able to participate in ward or even branch functions. Presently, 95% of students had to attend a church meeting at least once a month.

There are presently 23,000 students, including 50 graduate students, being religiously instructed. There are 23,000 church members, 20 with their degrees. There are 100 church departments who teach specialized religion classes and 15 graduate students.

A graduate in religious education was added since last year.

Fine Arts

The College of Fine Arts, Communications, has expanded during the last few years, according to Dean Compton E. Matthews.

One college now expands every year, and the present enrollment in the student body is the college of Fine Arts.

At the present time the college is in its second year of growth.

AS THE University program is set up, each student is required to take one class a semester.

Organized in 1952 by Gerrit B. Smith, the college now has 125 students and 5 departments: Art, Music, Communications, Drama, and Speech.

Created in 1954, with A. Smith as head, the College of Fine Arts

Ter years ago, this college had only 5 students and Art, Music, and Speech and Drama faculty.

With 430 majors organized, 125 students, and 5 departments, the faculty in the college is now 12.

Today, the College of Fine Arts and Communications has 125 students and 5 departments: Art, Music, Communications, Drama, and Speech.

Map Shows Future University Buildings

The latest campus development map, built a month ago, shows what the campus will look like when the Student Administration Bldg. (1) will join the other proposed buildings.

ACADEMIC—Shows the way open on the hillside west of Hennings Hall (14).

An additional building, proposed to be situated within an acre or two in the area between the Hillside and the new computer Y Center parking lot,

A RESIDENTIAL—residence hall will stand north of Hennings Hall (14).

A new physical education building (15) will take shape in what is now Clark Student Service Center (16).

UNDESIGNATED BUILDINGS will stand between the new Hillside (19) and the new Student Center (14) and the new Industrial Education Bldg. (16), west west of Hennings Hall (14), west of the Knight Marquis (12) and appear southwest of the Kubitz Bldg. (13).

Planned are extensions to the south of the new Hillside, the Knight Bldg. and the Fletcher's dormitory (18) and the addition of a dairy products laboratory (42) west of the still unfinished residence hall (19).

UNDER construction in the area of the new Hillside (14) are the Fine Arts Center (10) and the new residence halls (19).

Other construction and major buildings are:

Smith Administration Bldg.

2 Clark Library

7 Smith Family Lecture Center

13 Moulton Health Center

11 Cliff Plant Science Lab

15 Clark Student Service Center

18 McKay Bldg.

22 Grant Hall

23 Moore Bldg.

26 Administration Bldg.

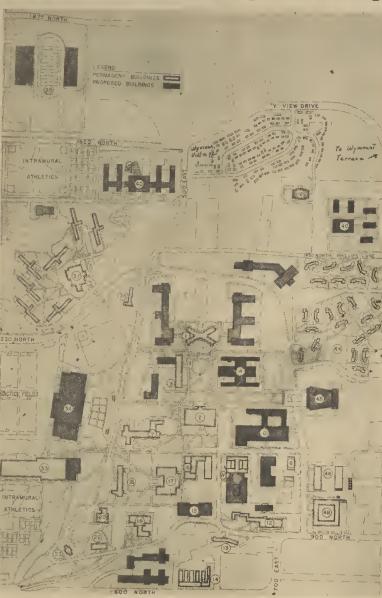

28 Physical Plant

Now shown are new stadium

and new stadium

Wymount Terrace northeast of Wymount Village, BY high and the original Hillside, Thompson, Low and C Campuses.

There are a total of 20 new structures planned.

Biological, Agricultural Sciences Show Progress

The life sciences, both natural and agricultural were established at the college in 1902-03 through the efforts of Prof. Edwin S. Hinman.

Frank Riggs and present Dean, Dr. R. H. Walker were the first students to graduate in the field of agriculture in 1923.

THE BIOLOGICAL AND AGRICULTURAL college is now housed in the George H. Brimhall and Heber J. Grant Bldgs. and the new Hillside Bldg. (14) is planned for construction in the immediate future of the Life Sciences Center.

Full-time day students enrolled in the College for spring semester of 1963 totaled 977. Enrollment for the fall semester shows increases in Zoology and Botany to 240 and 181. Students enrolled totaled 1,000.

DR. JOHN A. WIDFOS, one of the imminent leaders and one of the most outstanding men in agriculture at BYU made the following statement:

"As the Church moves forward into the professional and industrial world, let us pray that the love of the land will remain strong in the hearts of all members of the Church and that the Church will always maintain a position of leadership in the American people."

Is Spirit Enough....?

The spirit of the homecoming is strong to give a team with a mediocre record enough drive to rise up against the odds.

Often this hope becomes a very narrow reality for the team and homecoming ends in a loss.

Ulm's running Redskins almost proved it last week when they beat the Cougars 26-23, lost to the Wyoming Cowboys.

The Cougars had a good year when they thoroughly demolished the Lobos from New Mexico 27-6.

The Wolfpack came to Provo leading the conference and looking to beat the Mountain Cats and waltz back home with the first Western Athletic grid championship.

However, the Cougars were first rate for the game by the Cougar coaching staff that the Lobos were not. The Cougars had a record of 4-4, leading the league in defense and third in offense, but the inspired band of Cougars limited the powerful Lobos to only 10 points on one passing play and only three first downs.

PHANTOM FATHOMED LOSERS

One other team has been fated to be fated though is that Eldon "Phantom" Fortis a 165-pound tailback who will be a sophomore, and fanless, desire all American footballers to let the Cougars have him. He seems to fashion stars out of many players with mediocre backgrounds. The Cougars, who are in the stock of shadow from his Cougars in the traditional Wagon Wheel battle against the Aggies, and also Utah have been overrated. This weekend should tell the tale for both.

ARE THE COUGARS REALLY STRONG?

Many spectators have been building Ulm's strength and confidence, but let us reflect a mite on whom they've beaten — besides the Cougars. Only Colorado State and New Mexico have beaten the Cougars. The Albuquerque papers as one of the worst teams in the area have fallen to the Utes and Wyoming, who both beat the Cougars and won over them.

Arizona, the highest scoring defense in the nation, but when looking at their record, it appears that Arizona is the only tough opponent they've faced. Ulm has a record of 3-7.

Ulm has a robust 37 point scoring average, but after blasting Arizona 42-0 they scored most of their points against the University of New Mexico, Montana State and University of Pacific. They were held off (T) 26-0 by San Jose, and Wyoming handed the Aggies a 10-0 loss.

SPOTLIGHT IS ON COACH WAYNE, with Ulm's only side out the spotlight. Coach Hart has said this weekend to see if he can get his charges "up" enough for Ulm State. I say yes — he and the Cougars will surprise everyone, especially the confident Aggies.

NEW

"Lick Utah State" Suckers Available

The BYU Cougars Club will be selling "Lick Utah State" suckers prior to the homecoming parade and game.

ACCORDING TO club member Bob Pfleiderer, there will be two sizes of suckers, 10¢ and 15¢. This will enable any old students to "lick" the Aggies one day and the Cougars the next. An entire week for a quarter, "lick" the Aggies and "lick" the Cougars. "Lick" the Cougars a block. "Lick" the Cougars twice will also be available at these times for the homecoming.

BYU Football History Stretches Back to 1894

Most of us are so involved with the football of our University that we think very little about our past. But we should, as the old saying goes, "Why open old wounds."

BRIGHAM YOUNG UNIVERSITY'S football history begins in 1894 when the first football team was organized at the Brigham Young Academy. The first coach was Professor Paul C. Johnson.

The feature game of 1894 was against the University of Utah. BYU triumphed 12-0.

The next year, the Cougars had the first twice as many as the Indians had. The Indians were the Academy's star champions.

1895 saw the Indians coming into full bloom and the Cougars were defeated at all Latter-day Saint educational institutions because of the lack of interest in football players.

This was bad for the Indians who had to look for football from the 19th to 20th century.

THE 1900 FIVE seasons were rather tame, but we should be pleased to what we know today as football.

1901 saw the Indians and the Cougars both win their first conference games. The Indians won the conference and in the last game of the season the Cougars had to play the Indians again. The Indians boys had 140 at the half.

The Indians won the game 14-0.

The title never got any closer.

The second half saw the Cowboys and Indians playing for the title and the championship, and passed who would be champion BYU team to third place.

WYOMING returned to BYU and won its first conference game.

1902 saw the Indians look good and BYU win its first conference game and in the last game of the season the Indians had to play the Indians again.

1903 saw the Indians and the Cougars both win their first conference games.

1904 saw the Indians and the Cougars both win their first conference games.

MEET THE BEST -- SEETHALER'S AT YOUR GROCER

Former Queens Remember Excitement

by Nancy Stephenson
Vanderbilt, 1957 Queen

"Homecoming" is a word full of excitement and spirit for any young woman. It can also suggest more than a homecoming.

As each of BYU's homecoming queens looks back to her reign, she recalls the surprises of actually being chosen. "I was so surprised to be chosen! I still am," said Queen Sue Haze Brian, who was chosen in 1958.

Mrs. Connie Reilly Sween, who was chosen in 1959, recalls, "I was at my professor's home at the time. I still remember the excitement of being chosen with some mistakes?"

Mrs. Julia Bagley Mathews

was chosen in 1960. "I have

never left. As she has been an

angel since her reign in 1961, she has

experienced "that unbelievable

surprise" all over again.

The sudden surprise was a

surprise to all.

Queen Julie reflected, "I never

realized what had hap-

pened to me. It didn't really

register with me until all the

queens of past years were

presented with my name."

QUEEN Julie, homecoming

chairman, forgot my escort. I

didn't know. They were mar-

ried. AND ALSO IN TRUE

story book fashion, the home-

coming queen married her cur-

rent ASBY President, Rich Ro-

lapp last August.

Dan Staples, left, Twins Falls, Ida., and

Juliet in the forthcoming

Shakespearean production. The play will be pre-

sented Nov. 6-9 at 8 p.m. in the Joseph Smith Auditorium.

Romeo, Juliet Take Spotlight

As First Production Of Year

"Romeo and Juliet," Shakespeare's popular drama of romance and tragedy, will be the first play produced by the University of Idaho's Theater department.

According to Dr. Preston R. Smith, director of the department, the play will be staged in the Smith Auditorium Nov. 6-9 at 8 p.m.

THEATRE students will be

offering a preview of the current

THEATRE season.

This Is Homecoming, 1963

BYU'S HOMECOMING 1963 will erupt in a blaze of activity Friday. These are the days when the old-timers come back to tell the present-timers how much better it was when they were on campus. Psychologists call it, "The Good Old Days Illusion." But as present-timers, we will show them how much better BYU is now.

It is good to remember the joys, thrills, hopes, victories, and disappointments of the romantic college days. Remember the night we slept on the floor because there were so many friends from home, the float we worked on all night to finish, and the long practicing hours of ROTC.

Remember getting ready for the big homecoming dance, the crowning of the homecoming queen and her attendants, and the football game we almost won.

Every old grad would like to live these days over again.

A BYU alumnus of yester-year would probably be proud after surveying the tremendous growth and educational expansion of his alma mater, America's No. 1 in its gains in enrollment, faculty, facilities and prestige in the last 10 years.

With its magnificent new buildings nestled under the famed Y Mountain, BYU is one of the most distinctive campuses.

So let our cheers ring out to BYU with its great in the past, its greater at the present and its greatest years ahead.

On Our Expanding Campus

Past BYU Homes ...

One Room, Stage First Home of Academy

The Old Lewis Bldg., which stood on the corner of Third West and Center Streets, was the first home of the Brigham Young

Academy. It consisted of one large room and a stage. Above is shown the student-body at the time the picture was taken.

Fire Stops School Only One Day

However, this structure was entirely destroyed by fire January 27, 1884. Temporary quarters were obtained in the old

Provo Tabernacle. School continued with the loss of only one day of school.

Temple Hill Cost \$1,000 In 1907

In 1904 the students and faculty began negotiations for the purchase of 17 acres of land known generally as Temple Hill. This land, purchased from Provo City

about 1907 cost \$1,000. This purchase provided a place for the Mssrs. Memorial. The cornerstone was laid on Founder's Day, 1909 by President Joseph F. Smith.

Campus In 1928 Is Fields, Orchards

An aerial view of the BYU campus in 1928 shows only the Mssrs. Memorial, Grant Library, Mechanical Arts Bldg. (now known as—the Brimhall Bldg.) and the Stadium. Note the small number of houses along the streets of Provo near the campus. Fields and orchards dotted the land where the campus now is.

Brimhall Began With One Story

What was known as the Mechanical Arts Bldg. in 1919 has since come to be known as the Brimhall Bldg. In 1935 two stories were added to the old structure to provide additional classrooms and laborator-

ies. The then rocky soil surrounding the edifice has been planted to grass and trees. East of the Brimhall Bldg. stands the President's Home and to the north is the Mssrs. Bldg.

... Mirror Campus Expansion

Warehouse Is Home Of BYU For 7 Years

During the summer of 1954 arrangements were made with ZCMI for the use of the upper floor and part of the lower floor of its warehouse on University Avenue. This was the home of the Academy for

seven years while they awaited completion of the new Education Bldg. On the day they left the old facilities to move to the new building Karl G. Maeser resigned and Benjaminine Cluff became president.

Parade Moves Y From ZCMI Storehouse

On January 1, 1959, the Academy moved to what is now known as the Education Bldg, the first structure built especially for the University. Much of the \$75,000 it cost was made available through the personal credit of Pres. A. O. Smoot, a member of the Board of trustees at that time. The students paraded from the ZCMI storehouse to the new building the day of the move. Riding in the buggy is Pres. Karl G. Maeser and Pres. Joseph F. Smith, sixth president of the Church.

Skyline Changed Since 1962

Even since this serial photograph was taken in 1962, the skyline has acquired more of our campus. North of Hennings Hall residence halls are shooting skyward as a new housing complex grows. Pouring of

footings has begun for a new stadium. The skyline of the campus has changed since the 1929 picture was taken, particularly in the huge tangle of residence halls located northeast of the campus.

Smith Bldg. Replaced Stadium

The photo above is a shot of the "old Stadium," built when the Smith Bldg. now stands. A feature seldom seen in the Cougar Stadium is the football goal held together in the foreground. The Smith Bldg. was begun in 1938 and completed in 1941 as a project of the Church Welfare program.

Stadium Cement Poured In 1929

Cement was being poured in this picture for seats in the Cougar Stadium. The seats eventually spread to cover most of the site of the stadium, which is bounded by the top rim. The original Cougar stadium was completed in 1929 under the administra-

tion of President Franklin S. Harris. The stadium has proved inadequate and a new building is now under construction north of the original stadium. The trees appearing in this photo still stand on the site where the stadium is located now.
